

Technical Product Information

Compressor DCP32006, now also available with coupling kit for the direct drive!

1. Outline

This bulletin is to inform you about the introduction of the DCP32006 with coupling kit, for the direct drive.

2. Applicable product

DCP32006

DCP32006 (without kit)

DCP32006K (with kit)

3. Background

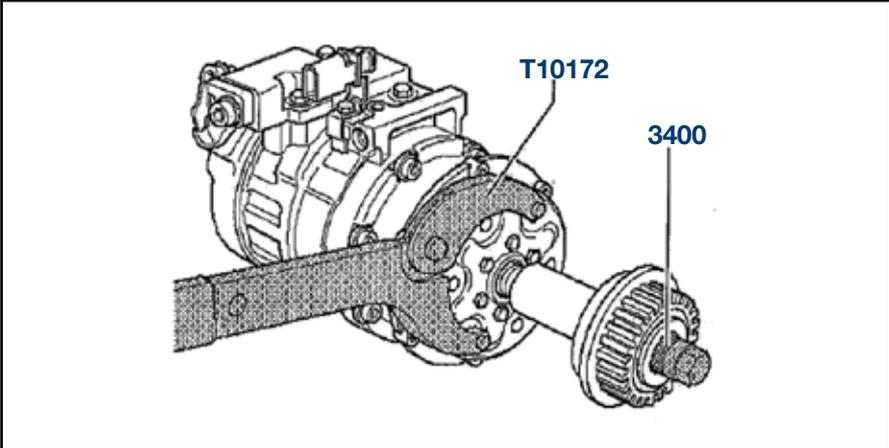

To improve the quality of the compressor replacement for the VW T5, VW Touareg and VW Phaeton, we have added the complete coupling kit of the direct drive to the DCP32006 compressor. This means that you now have the choice to order either the DCP32006 (without kit) or the DCP32006K (with kit).

4. Content of coupling kit

The kit consist of the freewheel-pulley and the rubber coupling. The kit is enclosed in the box, with the compressor.

Freewheel	Rubber Coupling
	
OE reference	
070 903 201 E	070 903 327 D

5. STT (Service Tooling and Testers) and tightening torque

	
Tightening torque freewheel	80 – 85 Nm
